**Subject:** Dr. Deering

Service Chief's,

I am considering sending an email to Deputy Secretary Sloan Gibson to express my support for Dr. Deering. I have not drafted one yet and feedback would be appreciated for the wording or any comments you think should be included such as examples of how he supported you. I would like to word it in a way that is positive and shows our support for him. Those of you who would be comfortable adding your name to it, please let me know and I will include you in my email. I will send a draft to those interested in being included before sending so that you would know exactly what is being expressed.
